## PRAISE FOR WINNING THE WAR ON TERROR

*"Congressman Jim Turner and all those involved in this study are to be highly commended. This study is a natural successor to the reports of the U.S. Commission on National Security/21st Century which warned of terrorist attacks and recommended urgent steps to prevent such attacks. The specific recommendations of the Turner strategy should be adopted before the next terrorist attack."*

--Gary Hart, Co-chair, U.S. Commission on National Security/ 21st Century

*"It is so exciting and comforting to finally see a truly comprehensive, detailed and fully integrated action plan for winning the war on terror. Its one hundred and two specific action recommendations cover all aspects of the war from attacking the terrorists and protecting the homeland to preventing the rise of future terrorists. Why have we never seen anything like this from the Executive Branch?"*

--Nick Rey, Intellibridge, former U.S. Ambassador to Poland

*"This is a comprehensive and careful analysis of how we can do better in the war on terror. It is a must read for all those who think we can and must improve our performance in the war on terror."*

--Ashton Carter, Harvard University, former Assistant Secretary of Defense for International Security Policy

*"It is heartening to see a strategic approach to winning the war on terror, rather than the current ad-hoc, absence of long-range planning. Full of sensible ideas that merit exploration."*

--Peter W. Singer, Brookings Institution
